

COLUMN NOTE TAKING	
CHAPTER: 24	TOPIC: Assisting with Wound Care
constrict	
dilate	
skin tear	
ulcer	
WOUND	
name 5 ways a resident can suffer a skin tear	
name 2 types of circulatory ulcers	
common places for venous ulcers?	
common places for arterial ulcers?	
what is a venous stasis ulcers	
what are TEDs?	
what do TEDs prevent?	
How are TEDs applied?	
name 5 persons at risk for blood clots	
what is a thrombus	
what is an embolus	
name 3 sites where embolus like to travel	
what is a PE	
How will you determine if the toe opening goes up or down?	
what is an elastic bandage?	
distal	
proximal	
where do you start to wrap an elastic bandage?	
name 5 reasons a wound is kept covered?	
how do you determine what kind of tape to use?	
what are montgomery straps?	
in what situations would montgomery straps be a good idea?
