

| CHAPTER 9 | ASSISTING WITH SAFETY | |
|---|-----------------------|--|
| coma | | |
| dementia | | |
| disaster | | |
| disaster codes | | |
| hazardous substance | | |
| biohazard bags | | |
| paralysis | | |
| poison | | |
| suffocation | | |
| workplace violence | | |
| AED | | |
| CPR | | |
| EMS | | |
| ID band | | |
| 2 identifiers | | |
| MSDS | | |
| OSHA | | |
| PASS | | |
| RACE | | |
| RRT | | |
| name 5 risk factors that increase the changes of an accident / fall | | |
| how does dementia impact risk for accidents / falls? | | |
| what can a surveyor ask you about safety? | | |

| | | |
|---|--|--|
| name 6 safety measures to prevent burns | | |
| name 5 ways you can help prevent poisoning | | |
| suffocation | | |
| name 6 ways you can prevent suffocation | | |
| FBAO | | |
| mild airway obstruction | | |
| severe airway obstruction | | |
| name 4 things you need to do if a resident is choking | | |
| what is the universal sign for choking | | |
| abdominal thrusts -- how do you do those? | | |
| chest thrusts | | |
| who can you NEVER use abdominal thrusts on? | | |
| why are older persons at risk for choking? | | |
| what is dysphagia? | | |
| who evaluates swallowing in your residents? | | |
| can you do abdominal thrusts on yourself? | | |

| | | |
|--|--|--|
| what do you need to check to be sure equipment is safe? | | |
| name 5 general safety rules to prevent equipment accidents | | |
| name 6 electrical safety rules to prevent electrical equipment accidents | | |
